Oirigami – Shelves system
Design by Atelier Oi

The ‘Oirigami’ shelves were named after the ancestral art of paper folding. What better name for these faithful companions of everyday life? With their folded brackets, they provide a visually stunning storage solution, while also delivering a welcome touch of poetry and gracefulness.

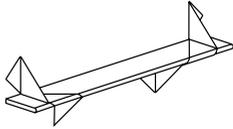

A simple shelf with a black lacquer or natural walnut finish consisting of a piece of wood that looks as if it were suspended in mid-air but is attached to the wall by an ingenious system. Two identical elements fashioned from sheet metal, folded into triangular shapes.

These three-dimension supports, and bookends effortlessly slide along the shelf to match your desires. They can be moved, flipped over, or brought together. Endless possibilities for a highly customisable object.

ATELIER OÏ

Atelier oï was established in 1991, in La Neuveville, Switzerland, by architects and designers Aurel Aebi, Armand Louis and Patrick Reymond. For over 20 years, atelier oï has striven to dissolve barriers between genres and foster cross-disciplinary creativity. Over the course of their achievements, architecture, design and set design have intertwined on an international scale. Cross-disciplinarity, team spirit and an intimate approach to the material are their watchwords. Therefore, experimenting is an essential aspect of atelier oï's approach: the objects often stem from an intuitive and emotional interaction with the material. In addition to experimentations, cultural exchanges and events dedicated to their work, the studio create designs for prestigious brands such as Alias, Artemide, B&B Italia, Bulgari, Breguet, Chopard, Desalto, Foscarini, Louis Vuitton, Moroso, Nespresso, Parachilna, Passoni, Pringle of Scotland, Rimowa, Röthlisberger, Swatch, USM, Victorinox, Zanotta and many more.
